

# How many pennies are in this jar?

**WELL** ... actually... none.  
They're **dimes**. At a glance, it's  
hard to tell. But if you open up  
the jar and take a good look at  
each one, you know for sure.

That's the kind of assurance  
advertisers get from CCAB  
media audit statements.  
From a comprehensive analysis  
of your circulation to a complete  
demographic breakdown, CCAB  
profiles circulation with clarity  
and precision.

So before you invest your  
advertising dollars in a  
publication, ask for proof.  
Ask for a CCAB statement.

VICTORIA  
B.C.

54th Annual Clinical Meeting  
Victoria Convention Centre  
June 25 - 29, 1998
