**OBSTETRICS AND GYNAECOLOGY
ONTARIO**

The Department of Obstetrics and Gynaecology, Queen's University at Kingston, has a geographical full time opening for an obstetrician/gynaecologist with subspecialty training in urogynaecology. This opportunity is for a physician with Royal College of Physicians and Surgeons of Canada certification in Obstetrics and Gynaecology. The position involves teaching, clinical practice and research in area of expertise. In accordance with Canadian Immigration requirements, this advertisement is directed to Canadian citizens and permanent residents. Queen's University has an employment equity program and encourages applications from all qualified candidates, including women, aboriginal peoples, people with disabilities and visible minorities. Application to include curriculum vitae and names of three referees should be directed to Dr. R.H. Gorwill, Professor and Head, Obstetrics and Gynaecology, Queen's University, Kingston, Ontario K7L 3N6. Closing date for receiving replies will be July 1, 1995.

**SUBSPECIALTY RESIDENCY IN
GYNAEKOLOGIC ONCOLOGY**

The combined University of Toronto/McMaster joint program in gynaecologic oncology is accepting applications from graduates of Canadian residency programs.

This position is fully funded for the two years of the clinical program. Every effort will be made to obtain funding for a third (research) year for the candidate.

This program is recognized by the Royal College of Physicians and Surgeons of Canada and includes radiation, and medical oncology, pathology, and the surgical aspects of the specialty.

It is intended that graduates of this program will proceed to academic positions

ST. JOSEPH'S GENERAL HOSPITAL OBSTETRICIAN/GYNAECOLOGIST POSITION

A position exists for a referral obstetrician/gynaecologist at St. Joseph's General Hospital in the Comox Valley on beautiful Vancouver island. This is an excellent opportunity to join one other obstetrician/gynaecologist currently practicing here, serving a population of just over 50,000. In addition, referrals come from all parts of the North Island, in keeping with the excellent reputation of St. Joseph's. The on call rota is approximately 1:4. St. Joseph's is a fully accredited hospital with 100 acute beds, including 12 obstetrical beds and a 15 crib capacity nursery, receiving close to 700 newborns each year. Paediatric and surgical services are available as well.

The area offers numerous natural attractions from skiing at Mt. Washington and hiking in Strathcona Park to golfing, cycling, swimming, sailing, and scuba diving, and is famous for its salmon fishing. There are numerous small pubs and restaurants and some of the most beautiful scenery in the Pacific Northwest. The Comox Valley is serviced by 1/2 hour flights to and from Vancouver every day and the ferry from Nanaimo to Vancouver is just 1 1/2 hours south.

Interested obstetricians/gynaecologists or senior residents in obstetrics/gynaecology should enquire and/or submit curriculum vitae to:

Dr. G. Holmgren,
Chairman, OBS Search Committee
St. Joseph's General Hospital
2137 Comox Avenue
Comox, B.C. V9M 1P2
Fax: (604) 339-1432
Telephone: (604) 339-2242. Ext. 1458
or: Dr. J. Dickinson,
Medical Director,
Telephone: (604) 339-1457

CLINICAL SUBSPECIALIST SUBSPECIALIST IN REPRODUCTIVE ENDOCRINOLOGY AND INFERTILITY University of British Columbia

The Division of Reproductive Endocrinology and Infertility requires a clinical subspecialist with a start date of **October 1, 1995.**

Preference will be given to a candidate with a special interest in further developing and maintaining our artificial insemination and sperm banking program. Participation in the division's in vitro fertilization, ovulation induction, ultrasound and consultative programs will also be required.

The division's clinic is located in the Vancouver Hospital and Health Sciences Centre - Vancouver Hospital site. It is staffed by five clinical members. While the main responsibilities are service and teaching, support of and active collaboration in the division's research programs is expected. There are also three basic scientists, as well as an established andrology laboratory and sperm banking facilities.

Qualifications include eligibility for licensure with the College of Physicians and Surgeons of British Columbia, an FRCS in Obstetrics and Gynaecology and completion of at least two

years of recognized North American fellowship training, or equivalent, in the subspecialty of Reproductive Endocrinology and Infertility.

The appointment will be at the Clinical Assistant or Clinical Associate Professor level, depending on the experience and qualifications of the candidate. The successful candidate will be appointed to the clinical staff of the Department of Obstetrics and Gynaecology, Vancouver Hospital site, and the Faculty of Medicine, University of British Columbia. In accordance with established procedures, all clinical appointments are renewable on an annual basis.

In accordance with Canadian immigration and employment requirements this advertisement is directed to Canadian citizens and permanent residents of Canada. The University welcomes all qualified applicants, including women, aboriginal people, visible minorities and persons with disabilities.

Closing date for applications is September 1, 1995.
